

## **Short Biography for RusLAS**

### **David Anderson BVMS MVM MRCVS**

He is a veterinary surgeon with over thirty years' experience in practice, academia and government service. He worked initially in a University teaching environment before he joined the UK Regulator in the Home Office Animals (Scientific Procedures) Inspectorate.

Since 2011, as a veterinary advisor for Pentlands Management Systems, he has provided technical support to the European Commission during the transposition of the new European Directive 2010/63/EU on the protection of animals used for scientific purposes.

He is a Vice-President of Institute of Animal Technologists, Past President of Laboratory Animal Science Association and a current member of Laboratory Animal Veterinary Association Council.
